

Naval Mission Planning Systems

Briefer: Allison Fairell
Date: 9 Aug 04

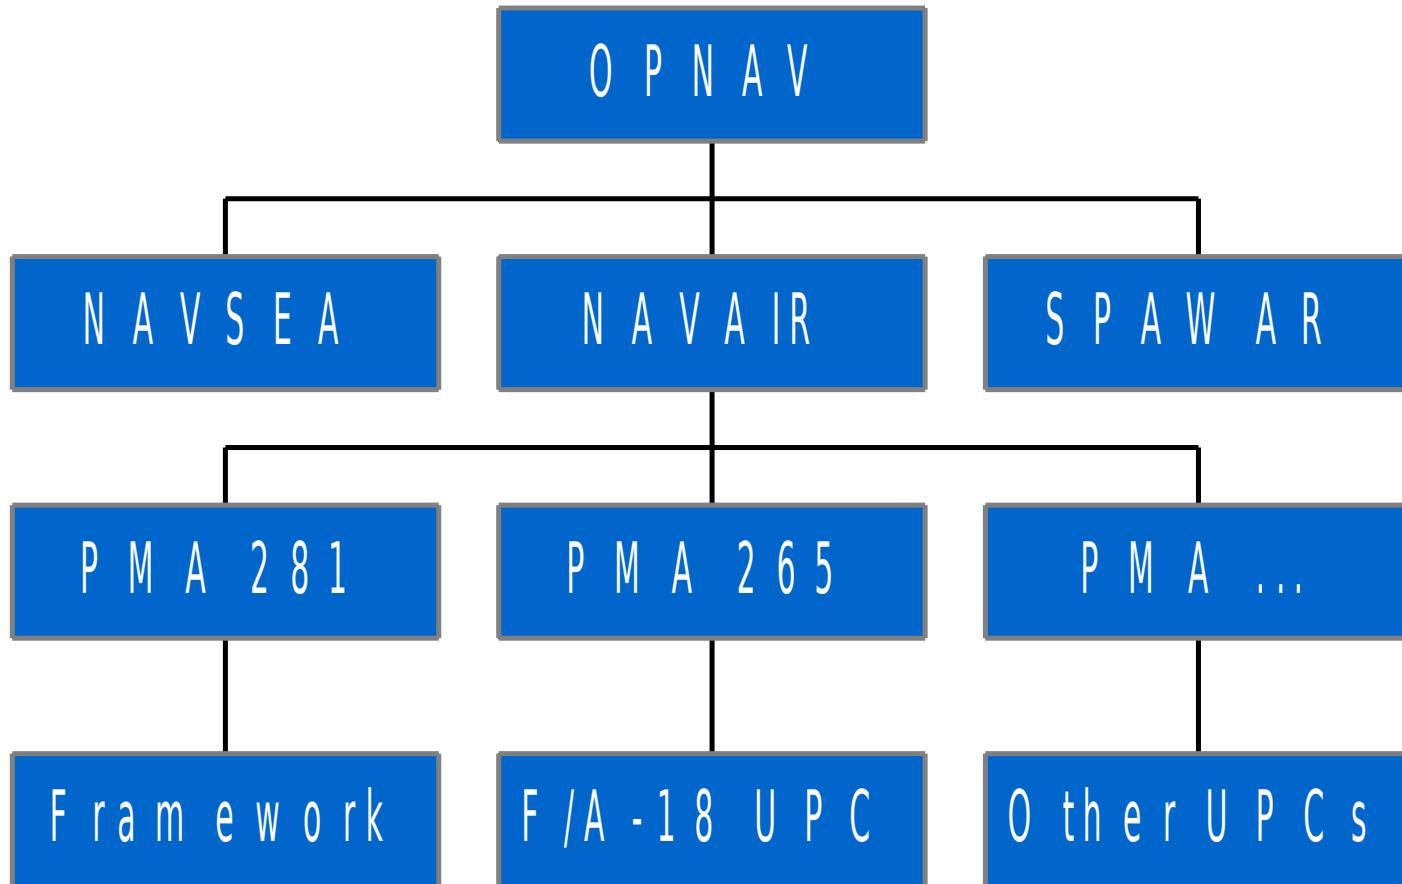

NavMPS Outline

- PMA-281 Organization
- Family of Systems
- Our Present
- Future
- MPE Approach
- Schedules
- Navy SEIC Strategy

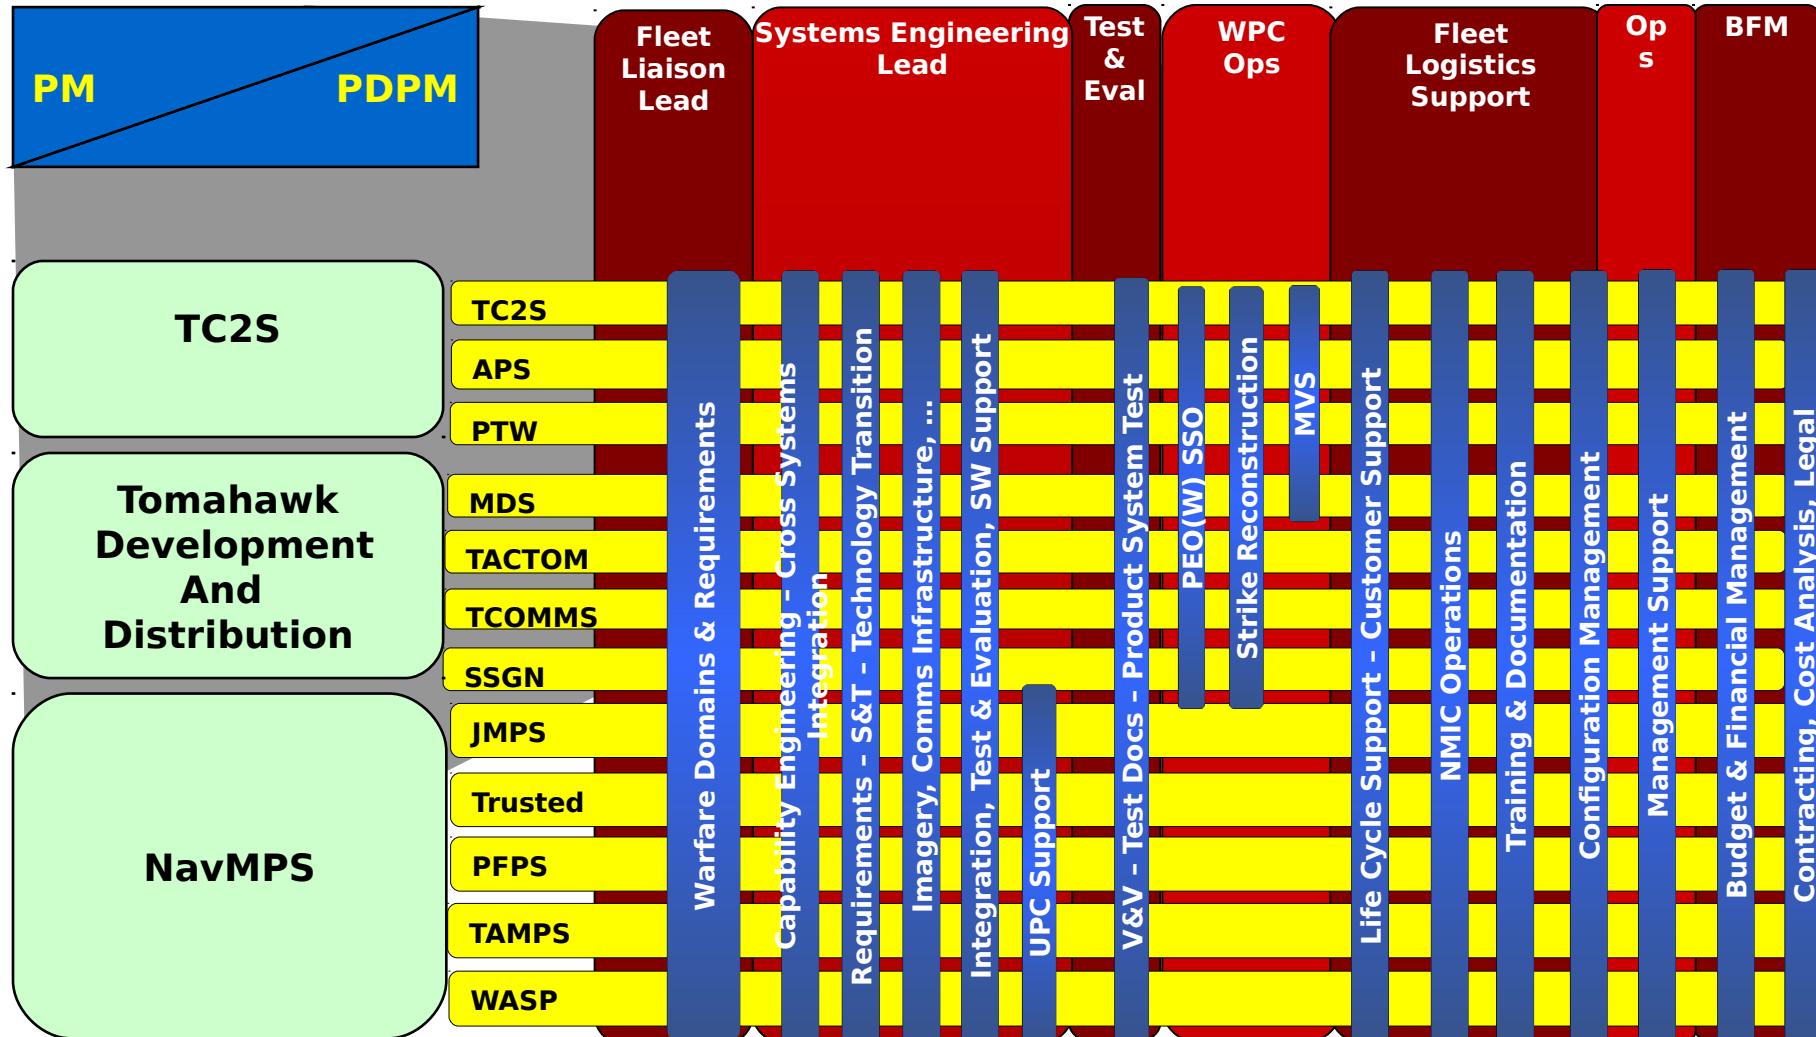

Naval Aviation Mission Planning

Organization PMA281

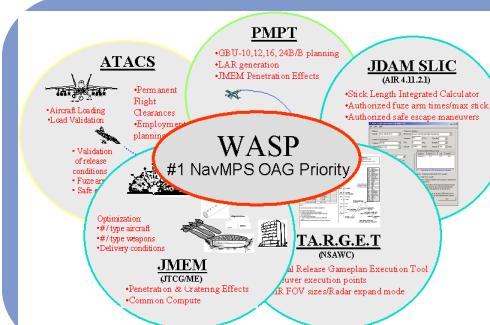

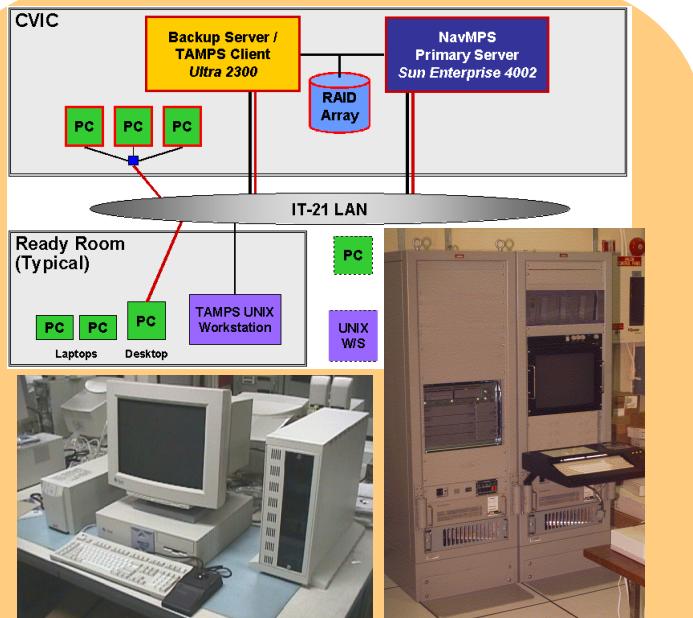

NavMPS Family of Systems

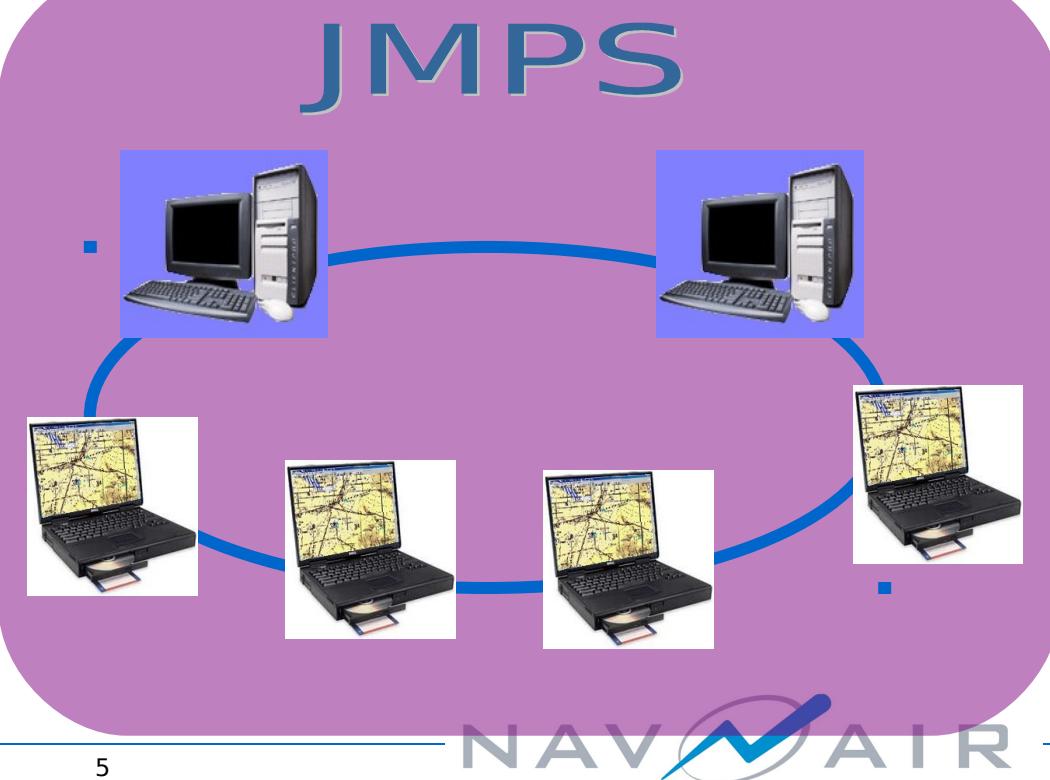

**N-PFPS
& CMDL**

WASP
Software

TAMPS

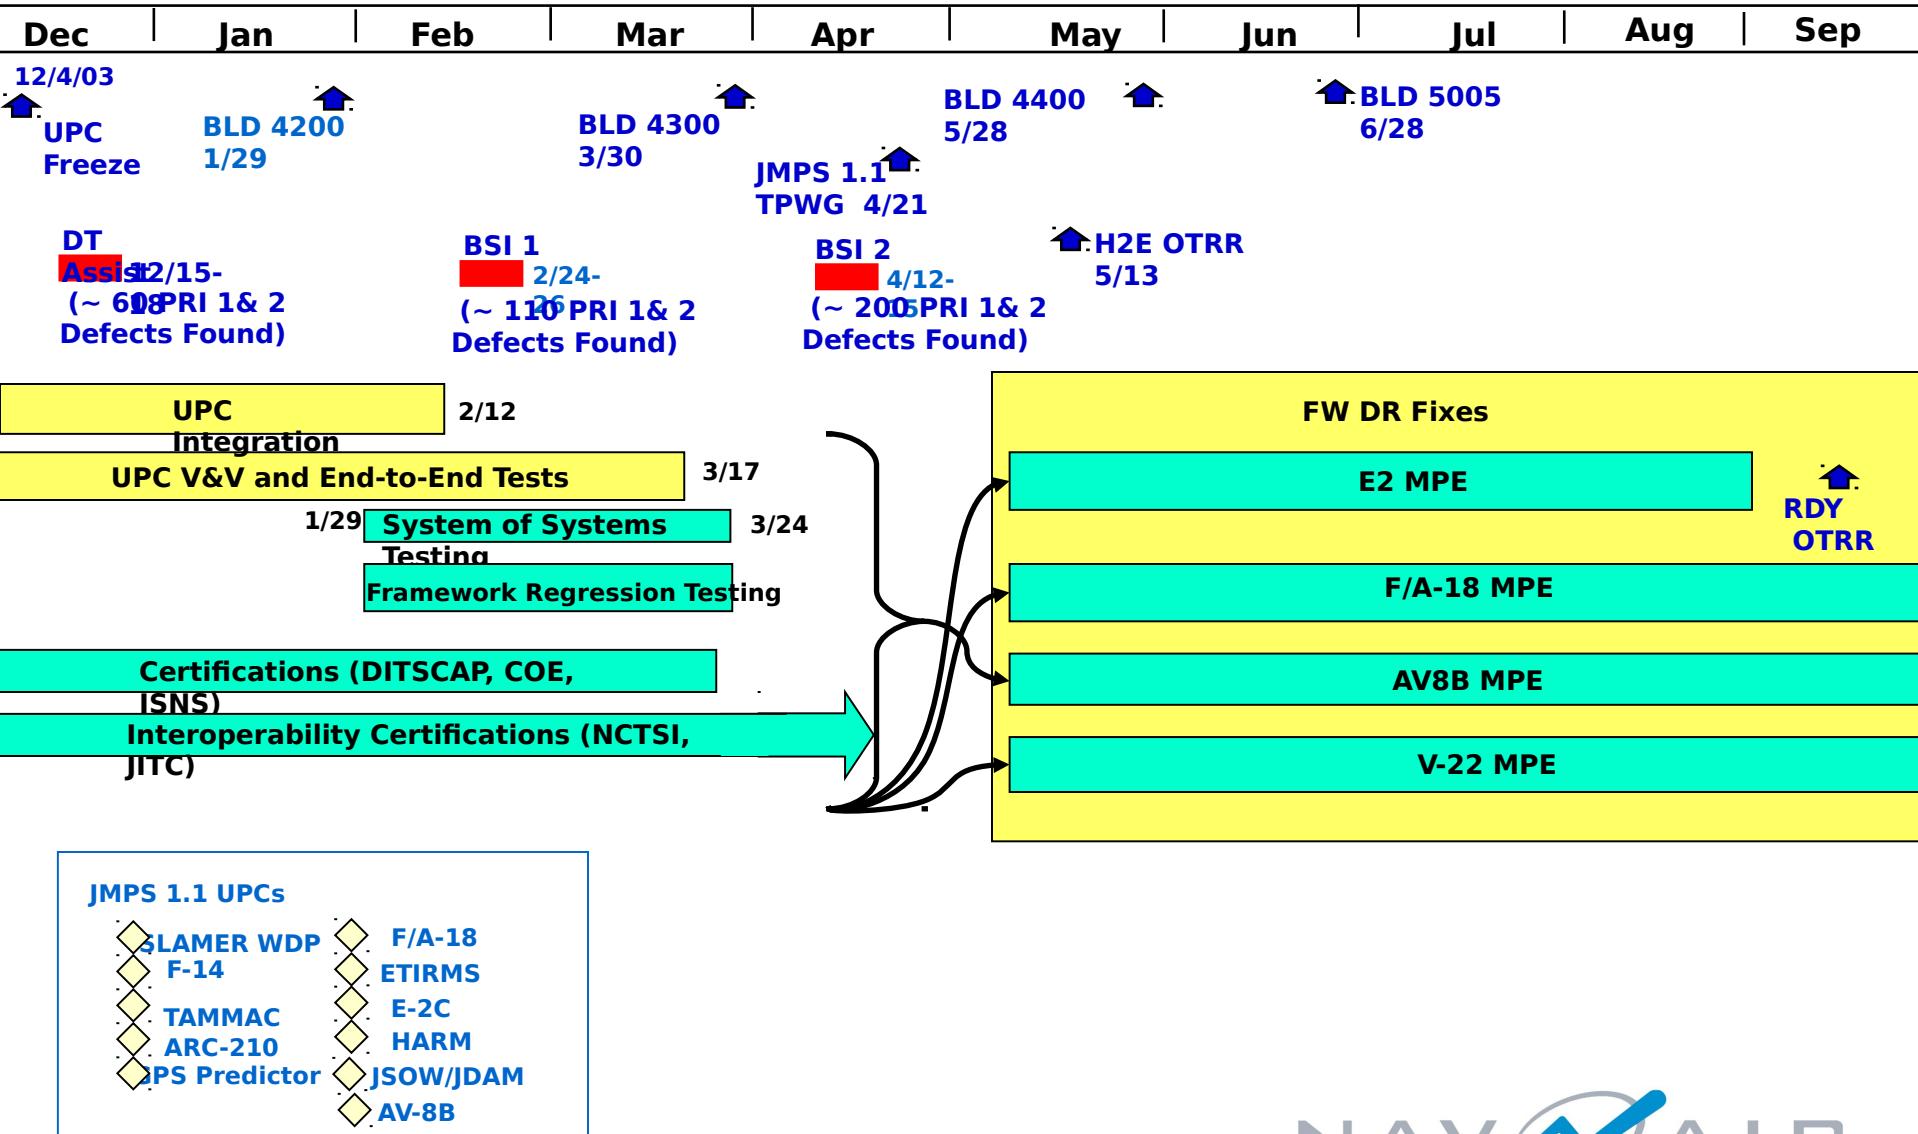

Lessons Learned

- Schedule driven by multiple programs
- No management structure to enforce system performance thresholds
- Worked towards the “Big Bang” theory for release
 - F/A-18 vs E2C
 - HW Configurations (client/server vs workgroup)
 - Testing (milestones vs continual/iterative)
- No centralized system integrator
 - Struggled with no system-wide problem report DB
 - No insight into system problems/maturity
 - Trusted UPCs, but did not verify

Building Block Software

Mission Planning Environment Approach

- Manage by MPEs
 - Facilitate spiral releases of MPEs
 - Manage anomalies at the system level
- Iterative MPE performance tests
 - Test in a centralized operationally representative test environment
- Continual user involvement required
 - Improved DT/OT teaming
- Changes managed by MPE
- MPE documented requirements (FRD process)

MPE Definition and Schedule

Air Force Business Strategy

Mission Planning Enterprise Contract (MPEC)

MPEC

- J MPS Development
- Legacy System Upgrades
- Design Components
- Software Programming - "Code Bending"
- OSS&E (e.g. Config Mgmt)
- Risk Planning & Mitigation
- Vertical Component and Integration Testing
- Technology Insertion & Prototyping
- Initial Training

Govt

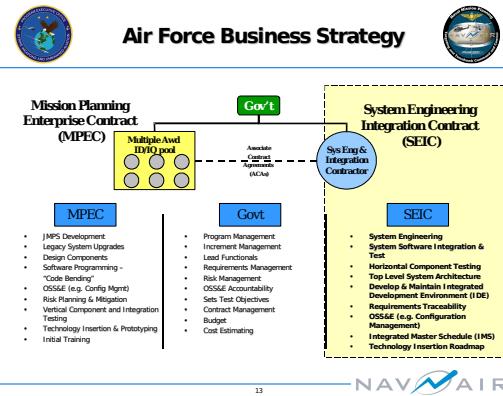

- Program Management
- Increment Management
- Lead Functionals
- Requirements Management
- Risk Management
- OSS&E Accountability
- Sets Test Objectives
- Contract Management
- Budget
- Cost Estimating

SEIC

- **System Engineering**
- **System Software Integration & Test**
- **Horizontal Component Testing**
- **Top Level System Architecture**
- **Develop & Maintain Integrated Development Environment (IDE)**
- **Requirements Traceability**
- **OSS&E (e.g. Configuration Management)**
- **Integrated Master Schedule (IMS)**
- **Technology Insertion Roadmap**

Navy SEIC Business Strategy

System Engineering Integration Contract (SEIC)

Sys Eng & Integration Contractor

SEIC

- **System Engineering**
- **System Software Integration & Test**
- **Horizontal Component Testing**
- **Top Level System Architecture**
- **Develop & Maintain Integrated Development Environment (IDE)**
- **Requirements Traceability**
- **OSS&E (e.g. Configuration Management)**
- **Integrated Master Schedule (IMS)**
- **Technology Insertion Roadmap**
